Nature and Extent of involvement of Faculty and students in academic affairs/improvements	The Institute has a development strategy in place, with stated goals and action plans that are in line with the Institute's Vision and Mission. The Steering Committee, in collaboration with IQAC, develops the plans, which are then approved by the DOTE.
Mechanism/ Norms and Procedure for democratic/ good Governance	The Principal is the academic and administrative leader who supervises the institute's entire operation and has authority over academic, administrative, financial, and growth issues. The Vice Principal (VP) oversees day-to-day administration, which is directed by the Heads of Other Departments, Training & Placements, and various Committee activities, which are reviewed by the Committee Chairperson. To achieve excellent governance, TPGIT has decentralized its operations and delegated responsibility at several levels. Academic leadership among teachers within subject areas, peer groups through clusters, and researchers through minor research projects is encouraged through a structured transfer of authority. Academic/administrative/co-curricular/extra-curricular activities are also decided by faculty. Decentralization increases administrative abilities while also providing professional responsibility and accountability, allowing for greater participation in decision-making.
Student feedback mechanism on Institutional Governance/faculty performance	Every semester, students provide comments on each course and faculty member linked with their class/course. The Head of the Department analyses and discusses this input with the affected academics. In addition to that an online feedback mechanism is also shared in website.
