★ VISION & MISSION ★

VISION

To provide a high-quality learning environment through innovative teaching and promote research to produce globally competitive engineers of excellent quality.

MISSION

M1

Graduates will have faculties with knowledge and skills continuously refreshed using innovative and proven methodologies and research.

M2

Graduates will have a dynamic and quality learning environment that emphasizes fundamental domain knowledge, analytical and experimental skills to meet growing challenges in the field of Electrical and Electronics Engineering.

M3

Graduates will have the requisite soft skills, lifelong learning motivation, and ethical and human values to excel in professional life.
