# NEWSLETTER

February-2019

Editorial Board

- **Dr. V. Kumar, Principal**
- **Mr. K. Karthikeyan, Assistant Professor/English**

## From the Principal's Desk.

Greetings to all!

I am quite happy to place the February 2019 issue of our college monthly newsletter in the college web site, staff WhatsApp group and hard copies to the departments. Contributions from the students are quite encouraging in spite of their tight and demanding academic and continuous assessment test schedules. Contribution from the faculty is yet to pick-up. Like the previous month, February was also filled with events and other student's related activities that kept us very busy.

I personally desire that the contribution from students shall be more towards enhancing and spreading technical knowledge and communication skills. Students should use this platform to quash the phobia towards English in the minds of fellow students. Your contribution will not be compared with others, as each one of you possesses different skill-sets. If at all you want to compare, do so your previous contribution with the present one, but not with others'. You must compete within. Mistakes that you make will help you learn and grow. You should enjoy learning from mistakes instead of grieving over what you did in the past. It is alright if you fail and commit mistakes, as no one learnt to swim without gasping for breath and gulping water. You are on your own journey, embarked to reach a specific destination and we teachers are facilitators helping you to enjoy the journey and reach the destination. I earnestly hope that the above encouraging words may bring in more contribution from students side.

I wish to bring it to the notice of my beloved students that a Grievance Redressal Committee has already been functioning in our college, which looks after the grievances of the students and staff members. Students with grievances shall use this forum, instead of taking the matter to their friends, classmates and parents, which will magnify any such issue in a disproportionate manner, rather than finding solution for the same. I have also created two additional e-mail addresses towards grievance redressal. The first one, [complaintstpgit@gmail.com](mailto:complaintstpgit@gmail.com), is exclusively dedicated for receiving classroom- related grievances, while the second, [hosteltpgit@gmail.com](mailto:hosteltpgit@gmail.com), for issues related to food provided in hostel messes.

My sincere thanks go to Prof.K.Karthikeyan, Assistant Professor in English, for the dedication shown by him in bringing out the newsletter again successfully. I extend my best wishes to all my beloved students for the forthcoming university practical and theory examinations.

-----

### **Bhoomi Pooja for New Men's Hostel**

The ground breaking ceremony for the construction of a new Men's Hostel in our college, as an annexure to the existing main men's hostel, was held in our college premises on 1<sup>st</sup> February, 2019. The head of the institution, Dr.V. Kumar, broke the ground and

laid the first brick as mark of beginning of the construction. All Heads of the Departments and Staff members of our college, PWD officials and Contractor and employees of the contractor's firm were present during the ceremony.

### **TNSCST Capacity Building Programme-Phase-II**

The Tamil Nadu State Council for Science and Technology held a training programme, **Young Engineers from Institution to Industry**, in our college from 4<sup>th</sup> to 6<sup>th</sup> February, 2019. The core objective of the industry training programme is to groom the final year engineering students studying in various engineering colleges, including TPGIT, in Vellore Zone to meet the requirements and demands expected from

engineering professionals. Resource persons and industrial experts from TNSCST shared their accumulated experience with future engineering professionals in the three-day training. Prof. A. Muralidhar, Placement Officer, TPGIT and Head, Department of Mechanical Engineering facilitated the successful conduct of the programme at Media Centre, TPGIT.

*(Clockwise) Prof.A. Muralidhar, Placement Officer, TPGIT honouring the resource person with a memento; students attending the training programme; a participant being awarded certificate of successful completion of the training programme; a student interacting with the expert person.*

## Inauguration of the ECE Association

The Department of Electronics and Communication Engineering of our college held the inaugural function of the department association, **ECE Association**, at the ECE Seminar Hall on 7<sup>th</sup> February, 2019. Thiru. S. Meenakshi Sundaram, B.E., Head, Research & Development, Nokia, Bengaluru, was invited as Chief Guest to the function and delivered the Chief Guest address. The Department of ECE was overwhelmed with the great sense of proud to have Mr. Meenakshi Sundaram as chief guest, for he was an old student of the same department.

Dr. V. Kumar, Principal of our college, presided over the function. Dr. Rahila Bilal, Head, Department of Electronics and Communication Engineering and Prof. B. Senthil Murugan, Treasure, ECE Association, were on the dais. Faculty members and students of the department were largely presented and got inspired to contribute immensely to the association and the department.

*The Chief Guest lighting the traditional lamp; our principal honouring the guest, Mr. Meenakshi Sundaram, with a shawl and memento; the eminent engineer interacting with students (his juniors); students of the department during the inaugural.*

## 27<sup>th</sup> Graduation Day of TPGIT

Our college held the 27<sup>th</sup> Graduation Day ceremony in a grand manner at Civil Engineering Seminar Hall on 9<sup>th</sup> February, 2019. An eminent engineer, industrial expert, and soft skills trainer, **Mr.G.Suresh Gopal**, B.E., MBA., Senior General Manager, Leitwind Shriram Manufacturing Limited, Chennai, was invited as Chief Guest to the Graduation Day and delivered the graduation address. Our Principal, Dr. V. Kumar, conducted the ceremony by presiding over the function and HoD's of all departments were on the dais and welcomed the successful students of their respective departments to receive their degree certificates.

During his graduation address, the Chief Guest emphasised the innate talent of the engineering professionals and sole responsibility of engineers, in particular, for the stability of the economy and well-being of a nation. By his scintillating speech both in Tamil and English, the Chief Guest inspired and motivated the young Graduands to be successful in all their future endeavors and life. The successfully passed-out students of our college overwhelming turned upon this great day to receive their degree certificates in colorful ceremonial rope.

*The Graduation delegates during a group photo; the delegates on the dais at the commencement of the ceremony; a topper receiving the graduation certificate from the Chief Guest and Principal; PG students waiting for their turn to receive the certificate in ceremonial yellow rope; UG students in block rope during the graduation day.*

### **Cancer Awareness Programme**

Our college in collaboration with Christian Medical College Hospital, Vellore, conducted a cancer awareness programme on 14<sup>th</sup> February, 2019 and the importance of its early detection. The awareness programme was held for the staff members, especially lady staff members. Medical personnel from CMC

met the faculty members personally in their seat and conducted diagnosis test on them. And they also offered counseling on the importance early detection of cancer, mainly breast cancer. Our staff members largely participated and immensely got benefited by the programme.

### **Mental Health Awareness Programme-Phase-II**

On 14<sup>th</sup> February, 2019, our college, in collaboration with CMC School of Nursing, Vellore, organised at Media Centre, the phase-II mental health awareness programme to BE First Year Students, since phase-I was conducted exclusively for students of higher semesters. Mental health resource person, Shreejana K C, from CMC School of Nursing, conducted awareness drive by testing the first year students' help-seeking behaviour regarding mental health and also provided them counselling.

### **Placement Training Programme for the Second Year Students**

TPGIT alumni association members sponsored a placement training and motivational programme for our second year students at Media Centre on 16<sup>th</sup> February, 2019. The successful ex-students of our college are always in desire to do immensely back to their alma mater like arranging spoken

English classes for juniors, skill development programmes, etc. This programme was solely organized by them to help prepare their juniors to meet with success when they go in search of employment opportunities after their four years study.

*Prof. A. Muralidhar, Placement Officer / Head, Department of Mechanical Engineering addressing the participants. Our Principal Dr. V. Kumar delivering the inaugural address of the training programme. The resource person Mr.Nagaprasad, from Hyderabad addressing the student.*

### **Amcot Placement Online Second Test**

The placement wing of TPGIT and Amcot jointly conducted the second online test for the final year engineering students of our college on 19<sup>th</sup> February, 2019. Placement

Officer and Head/Department of Mechanical Engineering, Prof.A.Muralidhar, coordinated the successful conduct of the test.

### **Alumni Meet**

Alumni affairs wing of our college arranged the annual meet at Media Centre in a colourful manner on 17<sup>th</sup> February, 2019. Dr. V. Kumar, Principal and Patron, presided over the function. Heads of the Departments, staff members, passed-out students, and current students were present during the one day annual gathering of ex-students to contemplate what can be done to further develop their Alma Mater and relive their college days.

Our college principal, Dr. V. Kumar, who presided over the function, spoke to the alumni members on the significance of their contribution back to the institution and asked them to visit the institution often to interact, motivate and encourage their juniors so that they would also be as successful and eminent like their seniors. The head of the institution also announced in his speech that for all the college and department functions, only passed-out students were invited as chief guest as a way to recognize and honour their successful stories and that would in turn stimulate the current students to follow the successful footpath of their seniors. He also requested that each batch of alumni shall help in placing at least one student per branch.

The Alumnus of TPGIT, as a token of their tribute to their alma mater, donated an Omni car to the college to be used for the college and hostel during exigencies, instead of hiring private vehicles or waiting for government / private ambulances.

*Principal Dr. V. Kumar and other dignitaries on the dais; President of the alumnus honouring the principal; Omni car key being handed over to the Principal; successful TPGITians during the meet, including TPGIT alumni affairs in charge **Prof. Poun Kumar**, Assistant Professor, Civil Engineering; a junior honouring her senior with a memento; finger print impressions of the old students attended the meet.*

### **Campus Cleaning Drive**

NSS Wing of TPGIT and Vellore Municipal Corporation, held a campus cleaning drive in our college premises on 23<sup>rd</sup> February, 2019 as part of Swachh Bharat. Under the supervision of NSS Officers Prof. P.

Praveenraj and Prof. K. Kanthashoba, NSS volunteers and students overwhelmingly turned up to take part in the campus cleaning activity and also pledged to have TPGIT a plastic free campus.

*NSS students during campus cleaning; they pose to the photo after cleaning.*

## Blood Donation Camp

NSS Wing of TPGIT conducts a blood donation camp every year. This year our college conducted the blood donation camp with Christian Medical College Hospital, Vellore, at Civil Seminar Hall, on 27<sup>th</sup> February, 2019. Dr. V. Kumar, Principal,

TPGIT, inaugurated the blood donation initiative at the venue. HoD's, NSS Officers, Official and Doctors from CMC were present during the inaugural function and blood donation.

## Epulz19, National Technical Symposium

The Department of Electronics and Communication Engineering held a national level technical symposium, *Epulz 2K 19*, at ECE Seminar Hall on 28<sup>th</sup> February, 2019. Mr.T.V. Anantharaj, Director, Research and Development, Sandisk India Device Centre Pvt. Ltd., Bangalore was the Chief Guest and inaugurated the symposium. Dr.V. Kumar, Principal and Patron of ECE Students Association, presided over the function.

Dr.Rahila Bilal, Head, Department of Electronics and Communication Engineering and Prof. B. Senthil Murugan, Treasure, ECE Association were present on the dais during the launching of the symposium. Staff members and students of TPGIT and from various engineering colleges largely participated in the one-day technical symposium.

### Achievements of Students:

Sri Ram Literary Association, Chennai, organised and conducted speech and drawing competition in the Vellore Zone. Our students largely participated and brought laurels to the college by winning various prizes in the competitions at the Zonal level.

*Prize winners were blessed and congratulated by our Principal.*

### WORKS BY FACULTY MEMBERS

#### **Why do we get peculiar smell after a first shower of rain fall?**

The peculiar smell which comes out instantaneously after a shower is caused by certain volatile chemical compounds released by a group of soil-inhabiting bacteria called streptomycetes.

Streptomycetes, grouped as actinomycetes, are abundant in dry warm soil; a million of them can be detected in a gram of soil. They liberate compounds such as geosmin and 2 methyl isoborneol when get wetted by rain water after a long dry spell. That is why we get the musty odour after the first shower of any rainy season.

Such a rain smell is called Petrichor, which is the scent of rain that arises when rains fall on dry soil. The word is derived from two Greek words Petra-meaning soil and ichor-the fluid.

**-Prof. V. Vetrivelan, Department of Physics.**

## WORKS BY STUDENTS

### KEEZHADI: Light of Forgotten Civilization

In our Indian history, Indus Valley Civilization also known as the Harappan civilization is the oldest of all. But there is a poetic line in Tamil:

“கல்தோன்றிமண்தோன்றாகாலத்தே  
வாளோடுமுன்தோன்றியமுத்தகுடிதமிழ்குடி”

We may think that this is just the poet's exaggeration of Tamils and its culture. But the recent Keezhadi excavation exactly stands testimony to the above line.

Keezhadi is a village located 12 km away from Madurai. During 2013-2014, the excavation was carried out by Archaeological Survey of India (ASI) on the banks of Vaigai river, which included 293 sites in five districts of Tamil Nadu such as Theni, Dindigul, Madurai, Sivagangai and Ramanathapuram.

The excavation mission was headed by ASI's chief officer Mr. Amarnath Ramakrishnan.

The excavation exactly proved the urban civilization had existed in Tamil Nadu since Sangham Age. Carbon dating confirmed that two samples sent from the site are nearly 2,200 years old.

## **HIDDEN TREASURES**

We are living in the 21<sup>st</sup> century and still we can't manage our floods. And the greatest aim of our government is “SWACHH BHARAT-Clean India”, but still we are facing the issues of open defecation in rural India, and in some case in cities as well.

But approximately 2,600 years back, our Tamil ancestors lived in a well-planned city with proper sewage systems and toilets, which are all far away from our imaginations.

- They used clay pipes and burned bricks for constructions.
- The excavation team found pots with minute and fine carvings in it. Historians say that these pots were carved with tool made from animal's bone. And the potteries are black-red in color, which is the characteristic of Sangam age, scratched with Tamil names which indicate highly literate population even 2,600 years back.
- Chess coins and combs made from elephant's ivory.

- About 13,638 antique materials were found and not even one material found with the notation of GOD. It may prove that our culture and civilization is the oldest on the Earth and Hindu religion and its castes are sown in the Tamil soil by invaders of the land.
- Roman and Afghan coins were found during the excavation that denotes the expansion of trade by ancient Tamils all over the world, even long before the birth of Jesus Christ.
- They even founded well developed weaving industries.
- And dice made with gold.
- And the most interesting fact is they crafted more jewels made of gold, pearl etc., but there is no indication of *mangalsutra (thaali)* in these jewels. They say that ancient Tamil people lived only by the bond of their heart, which indicates the absence of the rituals of the religion.

The Sangham literature *Madurai Kanchi* speaks about various artisans, goldsmiths, masons etc., who crafted wood, metals, beads

### **ANCIENT MADURAI**

We know the culture and lifestyle of our ancestors only by the literatures, before this excavation. But this excavation gave a great amount of archaeological evidence of our Tamil cultural history.

According to the Sangham literary works like *Silapathikaram* and *Maduraikanchi*, Madurai is at the West of Thirubhuvanam and at the east of Thiruparankundram. These locational details don't suit our present Madurai, but it exactly

### **POLITICAL CONTROVERSY**

Keezhadi is found as an advanced ancient civilization. As they dig deeper the antiquity is increased and if we go more widely, we might see a bigger and older civilization. And for sure, this will rewrite the ancient history of India. It has given archaeological evidence for the secular and privileged civilization of Tamil people belonging to Sangham era. If more excavations are conducted there, we can find a great lot of evidence that will definitely show the trace of a strong secular culture once existed in Tamil Nadu.

But there is a lot of political controversy behind this excavation. It is questionable that they transferred the chief officer of this archaeological project Mr.

and allied crafts. The Keezhadi excavation exactly proved what Sangam literature speaks of Tamil culture.

points to the locational details of Keezhadi. By considering the artefacts found in the excavation, historians confirm that Keezhadi was the true Ancient Madurai. While the stone engravings found in Madurai were from 10<sup>th</sup> century, Keezhadi's is up to 10<sup>th</sup> century. Another Tamil literary work Thiruvilayadarpuranam also says the transfer of Madurai from Manalur. Historians say that Manalur was Keezhadi and that was our Original Madurai.

Amarnath Ramakrishnan and all the other staff who had complete idea about the entire site.

Shedding light on this will bring more strength to Tamil's ancient history and this will prove that Tamil Culture is Superior. The age of the material was found out by radio carbon dating. But out of 13,638 materials only 2 samples were sent from the site that too at the depth of 2 meters. Historians say that the civilization's age can't be identified by just 2 samples and the fund allocated for radiocarbon dating is just 1 lakhs, while the government allocated several crores for Ayodhya Museum. And the excavation period for Keezhadi is just 2 years but the center permitted excavation in Gujarat for 13 years

and Nagarjunakonda, Andhra Pradesh for 10 years.

We may have a doubt that what is the necessary of knowing our past. But there's a beautiful saying by Marcus Garvey, "*People without knowledge of their past history, origin and culture is like a tree without roots.....*" A

*"Arise, awake and stop not until the goal is reached,"* said by Swami Vivekananda.

Similarly, I want our Tamil people to 'arise, awake and not to stop' till our history is revealed.

**தமிழன்என்றுசொல்லடாதலைநிமிர்ந்துநிலடா!!!(Proud to be Tamilian)**

**-Divya Rajalakshmi, III BE ECE**

### **A Piece of Work about '20 Rupees Doctor'**

This article is based on the news published in The Hindu dated 8<sup>th</sup> October, 2018. We have

all come to know a real five rupees doctor on screen as actor Vijay played a role in his film *Mersal*, but we are here to see about the real "20 rupees Doctor Jaganmohan"-who saw medicine as a service not business. Hailing from a village in Thirunelveli district, the doctor came to the city with his parents and finished his bachelor's degree in Pachaiyappa's College,

tree doesn't have life without root; likewise our cultural life is meaning less without our roots. It is our duty to have knowledge of our past. We are the ones who fought for our tradition "jallikattu" and even now we are fighting for our past and of course, it's our right to question Keezhadi.

Chennai. He joined a private medical company in Mumbai, but quit it later to return and join the government Stanley Medical College Hospital. He started a clinic in the name of his wife Chandra in his own house at Mandaveli(RK Mutt road) in 1975, charging patients as little as ₹1 and ₹2. Later, he hiked his fee to ₹5 and ₹10. The highest he charged was ₹20. Sometimes, he took whatever the patient could afford, while at other times he treated the poor for free. He treated about 300 people daily for a nominal fee. Dr.Jaganmohan passed away due to age-related ailments at his 78 age.

Hundreds mourned the death of Chennai's "20 rupees Doctor"

**-R. Harini, II B.E. Civil Engineering**

### **SELF BELIEF**

What is self-belief? It is the confidence and the self-belief comes from within. A man without self-belief is like a bird without its wings. The ultimate thing of self-believing depends upon how high, how determined, how efficient, how thoughtful, how challenging one sets goals in life. Dream, dream and dream! Dreams, a powerful word frequently mentioned by our former President, Dr. APJ Abdul Kalam, as a motivating mantra for youngsters of the nation. One must give fullest effort, hard work, sacrifice, patients,

determination and self-belief to see the dream come true. If you look at the beauty, you will fail to do your duty. But if you do your duty, your life will turn out beautiful. Dreams are like stars you can never touch, but they can win them where destiny with perseverance. People with highest dreams definitely meet with successes; people who have only dream without self-belief will definitely fail. Everything is within your reach, when you believe in yourself.

Success is not a big thing but hundreds of little things that you fight everyday with your self-belief determine your success. I was greatly inspired by the words of Mahatma Gandhi, 'do or die'. Try, try, and try until you succeed. Even Mohammed of Gajini won only his sixteenth battle after failure in his first fifteen attempts. So never rest till you reach the Everest because if rest you will rust. The life is not gap between the mouth and stomach but the gap between victory and fail. If you salute your duty, you needn't salute anyone. But when you pollute your duty, you will have to salute everyone.

You can count the number of seeds in an apple but not the number of apples that can blossom from the seeds. Similarly, you can count number of organs in your body, not the immeasurable talent each and every part of your body has. When you figure out and fight with confident definitely you are ultimate hero of all your endeavours. Success or failure is

not a final and failure is not fatal but how you fight your dream with self-belief that only counts. Positive thinking is far better than negative thinking. Suffer today and be a champion of tomorrow; every marble of Taj Mahal has gone through its pain that is why one of the seven wonders in the world. If there is no pain, there is no gain.

Success is 99% perspiration and 1% inspiration. Best example is Abraham Lincoln who was a son of cobbler. With his sheer perseverance and hard word he could become President in one of the most developed nations of the world, United States of America.

Sachin has hardly passed 10th exam, but he believed in himself and fought innumerable battles in crickets. A man hardly passed his 10<sup>th</sup> exam but today the first lesson in 10<sup>th</sup> Class about him. Changes will happen, miracle will happen, wonders will happen when you believe yourself.

**-S. Sathiyamoorthi, III BE Civil Engineering**

### **SCHOOL LIFE**

It was the first day of his college life,

When he introduced himself to everyone.

Suddenly mam asked him, "How was your school life?"

He said: "It was my first hell, mam" and everyone laughed heavily and agreed with him.

But the one who couldn't agree with him cried silently and longing for those happy days.

Yes! It was the one who carrying those unforgettable school memories in His HEART ♥ □

### **HOSTEL LIFE**

FIRST YEAR:

"I never stayed with these strangers ", he said, with tears in his eyes.

FINAL YEAR:

"I can't live without these naughty idiots", the same one said with tears.

-The untold story of every Hosteller.

## **BEST FRIENDS**

"Are they mentals?" someone asked on hearing those naughty conversations of them.

"No, no, they are best friends, he responded.

## **LOVE**

Someone asked him, "Still you love her?"

He replied, "I can't love her anymore", hiding the truth that he is falling in love with her for each and every second.

**-Ganeshkumar, II BE Mechanical Engineering-B**

## **Scavenger**

Good morning with cries!

'Trees' shed their leaves

To one who drops garbage from building top

And To one that throws it from vehicle.

They don't want to do, but they are supposed to;

They are sweeping to wipe out their cries,

Diwali broke out their hearts;

They won't have convocation deal

But that is not the one to heal them.

They are with bended-knees in trains,

They were ugly but they are not smugglers so don't be afraid!

They were seen on streets, at public units.

They should be honoured but, why not?

Why they are not reputed well?

Reason! They are all scavengers.

'Why should I worry? Let it be', said the common man.

**-P. DeepanSankar, II B E Civil Engineering.**

படிச்சாலும் புரியல  
புரிஞ்சிக்க நினைச்சாலும் முடியல  
என்ன படிக்கிறோம்னு விளக்கள  
ஏன் படிக்கணும்னு தெரியல

எங்க மூளை "inbuild memmoy" யா  
Store பன்னவுடன் volatile 'லா மறையுது...  
Anna university 'ல கேக்குற கேள்விகளுக்கு  
Google 'லயும் விடையில்ல...

பக்கங்களோ பொரளுது  
நேரமோ ஓடுது  
தூங்கவோ நேரமாச்சு  
கண்ணோ சொக்குது

தேர்வு நாள் அன்றோ  
விடியல் வரை Data installing..  
தேர்வு அறையிலோ  
தேர்தலுக்கான பரபரப்பு ....

எனக்கும் கேள்வித்தாளுக்கும்  
கணிய்பொறி சண்டை  
விடைத்தாளிலோ Data updating with errors...  
இதுதான் பொறியியல் கல்லூரிகளில்  
வெந்து போகும் மாணவனின் நிலையோ

###@ தஸ்லிம் ###

கருணை இல்லாத  
உயிர் கொண்டு  
மனிதன் என்ற  
சாயல் பூசுவதை விடுத்து  
சாம்பலாய் போகலாமோ...

அணுகுண்டுகளால் பொசுங்கிய  
மனித தடங்கள்  
நச்சு வாயுவால்  
நாசமான சிரியா சாம்ராஜியம்  
சிரிப்பு ஒலி கூடிய இதழ்களில்  
ரத்த வெள்ளம் புறலுதே  
என்ன சாபமோ?

ஏழாம் அறிவு தேடும் உலகில்  
ஆராம் அறிவை தொலைத்துவிட்டோமோ?  
இயந்திர உலகில்  
மனிதனை கொன்றுவிட்டோமோ?  
மனிதம் உள்ளவரை தான்  
மனிதன் வாழ்வான்  
என்பதனை மறந்துவிட்டோமோ?

பெற்றியின் ரகசியம்

FAIL என்ற வற்றைப்பற்றி  
F - FIRST  
A - ATTEMPT  
I - IN  
L - LEARNING  
'உற்றதற்க்கானவற்றைப்பற்றி தொடர் வாய்ப்பு'

END என்றதற்க்க  
E - EFFORT  
N - NEVER  
D - DIES  
அதாவது "பெற்றி 30 வருஷம் நேர்ந்து உன்னை"

NO என்ற வற்றைப்பற்றி  
N - NEXT  
O - OPPORTUNITY  
அதாவது "அடுத்த வாய்ப்பு"

- V. Divya (19MCA15)02  
2<sup>nd</sup> year MCA

Wow! We may not see this scenery after 30 years.

😊 ☐ Enjoy nature in all time and places

Make hay while the sun shines 👍

Raguram, I BE Mechanical Engineering

**-Jemima Sherin, I BE Civil Engineering.**

## **VISION OF THE INSTITUTION**
